★ It is not possible to create a task with a numerical title.

Step 1: Tap the "+" button.

Step 2: Enter data in the title and click the button "✓"

Step 3: Tap the "+" button.

Step 4: Enter data in the title and click the button "✓"

Expected result: The new task is shown. The message "TO-DO saved" was shown.

Actual Result: Task not created

★ The "←" button cannot be used to exit the area for creating a new task.

Step 1: Click the "+" button.

Step 2: Click the "←" button.

Expected result: Leaving the area for adding a new task

Actual Result: It is not possible to exit the section for creating a new task. A restart of the application is necessary.

★ In the To-DO application, the "Active" filter is set incorrectly.

Pre-conditions: At least three tasks have been created. A checkbox is placed next to one or two tasks.

Step 1: Open the filter menu.

Step 2: Tap the "Active" button.

Expected result: Tasks that have not been marked with a checkbox are shown.

Actual Result: All tasks are shown.

★ The task was removed without a checkbox.

📄 **Pre-conditions:** At least three tasks have been created. A checkbox is placed next to one or two tasks.

Step 1: Select one of the tasks that have been created.

Step 2: Mark the task with a checkbox.

Step 3: Tap the "Delete task" button.

Step 4: Steps 1 and 3 should be repeated (without putting down a checkbox).

Expected result: The task was not removed.

Actual Result: The task was removed.

★ When clicking the "Refresh" button, the TO-DO program crashes.

Pre-conditions: At least three tasks have been created. A checkbox is placed next to one or two tasks.

Step 1: Open the kebab-menu and tap the "refresh" button.

Expected result: The task section has been updated.

Actual Result: The program crashes. The created tasks are not saved when you re-enter the program.
